

# Projects and works notice

## Upcoming works:

Tuna Cr and Market St, Fingal Bay

## Commencing from:

Early 2027

Port Stephens Council has finalised design work and planning for upgrades to Tuna Cr and Market St. The aim of this project is to improve the road condition, install stormwater drainage and improve the safety for residents and all road users. This project is being funded by the Federal Governments Roads to Recovery Grant and Council's Asset Rehabilitation Reserve.

The scope of work includes:

- Stormwater drainage construction
- Road pavement reconstruction
- Kerb and gutter construction
- Driveway adjustments as required
- Minor landscaping works including turfing

Please see map over leaf indicating the extent of work.

The project is currently in the final planning phase, with a construction contractor expected to be engaged in the coming months. Further correspondence regarding a commencement date and traffic management will be issued at this time.

Kerb and gutter contributions will be requested for properties along Tuna Cr and Market St where kerb and gutter does not currently exist in accordance with Council's Contribution to Works for Kerb and Guttering Construction Policy. Separate correspondence will be forwarded to properties in the near future.

For more information on the project including frequently asked questions scan the QR code below to view the Projects and Works page on Council's website.

If you have any questions, please contact our Customer Experience team on 4988 0255.
